AL YAMAMA
Engineering Company
General Contracting Co. Ltd.

CHAIRMAN MESSAGE

To embark on a journey of success one needs the tools of preparedness, foresight and strategy. These lead to the path of growth and high-quality operation. We endeavor to be one of the most competitive companies in the industry with emphasis on efficiency in operations and reliability for customers.

Guided by our glorious past and geared towards the future, we have the key success factors necessary to withstand the winds of change. Our well-recognized market presence with a strong portfolio of products and services, is what will take us marching into the future, we began as the dream of one humble man and have extended beyond his wildest dreams. Let's reach out even beyond, together.

Saadi Koes Shnawa
Chairman

“A true leader has the confidence to stand alone, the courage to make tough decisions, and the compassion to listen to the needs of others. He does not set out to be a leader but becomes one by the equality of his actions and the integrity of his intent.”

We may have grown beyond our most ambitious dreams, however, one thing has remained the same - the pursuit of excellence and strong social responsibility is at the core of our philosophy.

LARGEST SPECIALIZED CONTRACTING SERVICES COMPANY IN IRAQ

CORPORATE OVERVIEW

For more than 25 years we have prided ourselves on our strong customer focused approach and we continually aim to provide a world-class quality service, which has enabled us to attain and sustained leadership in all our lines of business.

Al Yamama has an international presence with offices located in locations throughout Iraq and the UAE.

The company continues to grow its global footprint with more offices planned to support the company's ever growing businesses, our marketing and distribution network has also established a reputation for strong customer support.

Al Yamama is an eco-friendly organisation that believes progress must be achieved in harmony with the environment. A commitment to the community welfare and environmental protection are an integral part of the corporate vision.

Al Yamama has redefined its organisational model to facilitate growth and efficiency which has been achieved through greater levels of empowerment and an investment in quality recruitment.

The new structure is also built with the intention of serving multiple sectors of the industry allowing Al Yamama to provide a first class service to all current and future clients.

AL YAMAMA HAS PLANTS WITH FACILITIES OF TWO YARDS

- 1 Khor Al Zubair - Head Office
30,000 Sq.m
- 2 Majnoon Oil Field
150,000 Sq.m

CORE VALUES

To surpass the expectations of our clients every step of the way and be at the forefront of the international arena in every field we operate while ensuring a better future to all our stakeholders through corporate sustainability.

BELIEVE

Al Yamama Engineering Company believes in the betterment of every employee - our work culture embraces everyone and offers equal opportunities to further capabilities and character.

GROWTH

Those who find themselves working with us will find that competence and merit is the only basis for job security. Our people blossom in an environment that is filled with opportunities to learn and align with the world's technological trends.

RECOGNITION

When the standard is high, the drive to achieve is even higher. We offer performance-based evaluation, incentives and appreciation.

INNOVATION

We believe that interaction is two-way and encourage everyone to participate in a conversation. The spirit of enterprise and initiative is always welcomed.

TRUST

With openness comes trust - our team cooperates and supports each other with a sense of ownership and a healthy respect for differing opinions. Candidness is a virtue that doesn't go unrecognized.

OUR VISION

To surpass the expectations of our clients every step of the way and be at the forefront of the international arena in every field we operate while ensuring a better future to all our stakeholders through corporate sustainability.

OUR MISSION

To provide the highest quality of service to our clients, ensure long-term profitability, increase shareholder value, provide career opportunities, and continuously support the betterment of the community.

PROFESSIONAL ENGINEERING DISCIPLINE

PILING WORKS

ROUGH TERRAIN? NO PROBLEM.

Our custom foundation drills will help you tackle any job, any time, in any terrain.

AY piling work is a proven innovator of deep foundation construction. Our client centric focus and commitment to investing in the brightest minds, latest technology and cutting-edge equipment has been the AY piling differentiator since the inception of our company.

We provide the market with highly effective solutions for complex projects, ensuring that objectives and timelines are delivered on target and as per clients' expectations. With a successful track record that spans more than a decade, AY developed a tradition of honesty and integrity that is reflected in every job that we deliver. We also deploy a wide range of specialized and modern equipment to build foundations which suit all sorts of ground conditions.

SHEET PILE

COMMON USES

- Support excavations
- Construct seawalls and bulkheads
- Create barriers to groundwater flow

With both vibratory and vibration-free installation rigs, Al Yamama has the equipment to construct the right solution for your project.

PILE

CAST IN SITUE AT
BROWN FIELD AREA

ONSHORE PRECAST PILES

Robust and cost-effective
alternative piling solution
for civil engineering and
infrastructure projects.

OFFSHORE - INSTALLATION OF STEEL PIPE PILING

**Specialty in Enhancement
customer satisfaction
with a completion of

ROAD CONSTRUCTION

STEEL STRUCTURAL WORKS & SHEDS

Steel Structural work for Oil field

CONCRETE WORKS

FOR DIFFERENT BUILDING

PRECAST WORKS

AY will assist you to choose the most suitable precast system for your project. In this decision, consideration will be given to such issues as buildability, logistics, structural considerations, durability requirements, architectural and aesthetic considerations and many others.

We have gained experience through hundreds of reference projects nationwide and will recommend solutions that have been successful earlier. When this consultation is done at an early stage in the project, the system can be optimized for precast and great cost-savings can be achieved for the benefit of the developer and contractor.

PRECAST FACTORY

**DRASTICALLY REDUCED
ENGINEERING MAN HOURS**

PIPELINE WORKS

Develop solutions based on decades of experience that add flexibility, improve productivity and reduce cost

We encourage a working environment in which new ideas emerge as responses to understanding client needs and delivering what is required to meet them.

AY operations concentrate on foundations and moorings; risers, conductors and flowlines; marine electronics, instrumentation and surveys. These core areas are supported by strengths in activity management and manpower provision. This linked offering covers the life of a field and is distinct from the services offered by specialist construction companies, drilling companies and asset owners.

HDPE LINER WORKS

MAINTENANCE, REHABILITATION & CLEANING WORKS

Rethinking Materialization

Everything you need is right here at AY, from maintenance, rehabilitation and cleaning. Our disciplined approach to process efficiency and operational excellence includes a dedicated project manager to oversee your project every step of the way.

LOGISTICS

- | Rig Moving
- | Heavy Lifting
- | Mobilization, Hospitality, and Catering
- | Transportation

MEET THE GLOBAL
DISCIPLINE HEAD
FOR LOGISTICS

RIG MOVING

Rig moving is a very complex process involving numerous operations and activities. Preplanning, coordination and adequate supervision of the efforts of all personnel involved is essential to carry out a safe and efficient rig moving operation.

Safety and environmental impact analysis and feasibility studies are also weaved into the logistical assessment and coordination, particularly before a rig move begins. AY has experienced Rig move managers, who lead the special teams for rigs mobilization. The Rig move team is always ready to operate in all major oil and gas areas of the region. We are constantly following rules of active personal control of every rig mobilization stage. We perform such control to provide high quality service and to reduce risks. We keep rig mobilization information transparency for our clients by providing agreed services: high quality reports, electronic systems and personnel involvement.

Safe, efficient and economically sound manner is a key service offering from Al Yamama

HEAVY LIFTING

Every industry presents unique supply chain, but none is as complex as oil and gas. Transporting equipment and material supply requires special equipment, strict regulatory compliance, and extensive safety procedures. It often requires multiple modes and involves everything from supplies for oil rigs to hazardous materials.

related to the most complicated and challenging issues that involve transportation of oversized and heavy cargoes. We provide a full range of services to develop and implement the most appropriate factory-to-foundation transport solutions for heavy and oversized cargoes.

MOBILIZATION, HOSPITALITY & CATERING

**We Build
Relationships**

AY specializes in the rapid deployment of food service and temporary accommodation operations to remote sites. AY has more than 25 years combined experience, in its executive, within the mobilization, hospitality and catering.

HOTEL

BEDROOM

**REFRESH
AREA**

LAUNDRY

TRANSPORTATION

We provide land transportation of construction material through Trailers, flat beds and Cement Bulklers. Whether it is by road, rail or barge, the heavy and oversized modules for these facilities need complex transport and lifting arrangements. AY has the people and equipment to accommodate the most unusual of needs.

PLANTS

- | Precast Plants
- | Ready Mix Concrete Plants
- | Asphalt Plants
- | RO Plant

**MACHINERY FOR
EVERY NECESSITY**

PRECAST PLANTS

Build your
Vision

intently working on building tomorrow's vision in the rapidly growing Precast Industry. We have been consistently excelling in providing prefabricated building solutions to our customers' satisfaction. Since the day of origin in this region, we are confidently growing in terms of performance as well as the working team with all our local and international know-how, knowledge and experience as basic pillars of our company.

In construction, time is of the essence. Starting from design, manufacturing and construction, a Precast solution offers considerable time saving, in addition to flexibility of design, neat construction site and reduced manpower usage.

Precast beams and columns offer a perfect solution for fast track projects as well as for regular projects. Whether for a simple or complex structure, Precast beams and columns are flexible enough to suit all architectural and structural criteria.

READY MIX CONCRETE PLANT

Excel at surpassing our clients expectations for delivering a superior product on-time and within budget.

The Ready Mix Concrete Division at AY supplies the highest quality of ready mix concrete, Dry concrete mix, and cement grout, and it has been engaged in several prestigious projects in the region. The technical laboratory at our concrete batching plant ensures the precise and consistent supply of materials, as well as making sure that all the required specifications and standards for quality concrete are at their highest.

ASPHALT PLANTS

AY use the highest quality materials to produce a durable asphalt mix product that exceeds industry standards and is routinely tested at our plant to maintain quality control. The number one paving contractor in terms of jobs completed and standard of workmanship. we also offer an industry-leading warranty on all work completed.

Understanding of your business and the development of plants that provide real-world solutions.

RO PLANT

AY's experience spans multiple industries, employing technologies such as plant filtration, reverse osmosis, and ion exchange for softening and deionization. We offer customized answers tailored to the needs of your business and supported by the highest level of service.

AY is strongly committed in the creation and development of technologies for care and preservation of the environment. Thanks to technology, innovation and reliability, AY is able to meet the different needs of water treatment and water recycling, by offering state-of-the-art technology and flexible plants which are able to adapt to the needs of civil and industrial sectors.

Dear Sir,

China Petroleum Pipeline Bureau wishes to express its sincere appreciation to Al-Yamama Eng. Co. for the excellent work carried out by your team during the construction of ASP2 project and would like to congratulate your management and site team for completing the work safely and to specified quality. This demonstration of professionalism and commitment by your staff contributed immensely to the achievement of our project target.

We greatly appreciate all the support you have given and still giving to CPP team to move with the project forward and making this accomplishment successful.

We believe that your team will complete the remaining works at MI-11-MI-E20 and CPP GTG Civil work package with excellent performance as always to help CPP to achieve their target within specified time frame.

We extremely appreciate our association with your organization.

To Whom It May Concern

Dear Sir/Madam,

PERSONAL REFERENCE FOR AL YAMAMA COMPANY

Mr Saadi Kuwais of Al Yamama Company has been contracted to do groundworks for the British Army on several construction sites across the British Area of Operations, but mainly at Shaiba Logistic Base. His company has proved to be very efficient and have produced a very high standard of work. They have managed to achieve this on time and to budget, which is highly commendable. He continues to be approached by us to tender for works, and I am sure he will have much more success working for my department.

I have no hesitation in recommending Mr Saadi Kuwais and his company to tender for works contracts, which I believe he will carry out to the same high standard he has achieved for the British Army.

Dear Sirs,

On Behalf of Shell Iraq Petroleum Development (SIPD) I would like to pass on our recognition of Al Yamama's valuable work to support the Majnoon FCP project, both as subcontractor to many of our main construction contracts as well as being a direct contractor to SIPD.

Al Yamama's work has consistently met our Health, Safety, Security and Environmental expectations and has delivered quality work. Al Yamama has a very cooperative and positive attitude which has proven to be a great asset to the Majnoon project.

We are looking forward to inviting Al Yamama to tender for future work in the Majnoon field, as well as other Shell projects in Iraq.

December 07th, 2010

To Whom It May Concern

Sub.: Construction of security systems

Dear Sir,

I am writing this letter to thank your company, Al Yamama Engineering Co., and especially Site manager engineer Imad Ali Abdul Hussain, for the job well done on construction of security systems at TPE Al-Hartha TPS residential camp from September 01st, 2010 to December 01st, 2010. Within the three months of the project execution, you have shown diligence and dedication to finish work in time, which greatly benefited other pending projects we are handling.

Even though there have been several problems during the course of the project, you were able to maintain the efficiency of the development. Your attention to the specifics of the construction as well as proper scheduling has been very remarkable, resulting to a job well done.

Again, I would like to express my gratitude in providing your 100% in completing our project. We would not hesitate to refer Al Yamama Engineering Co., and especially Site manager engineer Imad Ali Abdul Hussain to other organizations who are also in need of quality services from a contractor.

I hope that this would be the start of our continuous relationship and future success.

Yours sincerely,
Yuri D. Panferov

Project: Majnoon Oil Field Development, Iraq
 Subject: Recommendation Letter

With reference to the above subject, Client, Shell Iraq Petroleum Development would like to confirm that Al Yamama Engineering Company has been engaged on the Majnoon project for a number of years to date.

During this time Al Yamama has performed their contractual responsibilities, in respect to the provision of adequate technical manpower and special equipment, for piling for example, successfully and to the Client's satisfaction.

Al Yamama has performed several high activity short term contracts such as the following without encountering any major disruptions to the schedule being attributable to lack of equipment or experienced personnel.

Contract Number	Description	Status
SIPD 1088	Earth & Road Works	Ongoing to SIPD Satisfaction
SIPD 1069	Bored Piles & Misc Civil Works for FCP Gas	Ongoing to SIPD Satisfaction
SIPD 0576	ASP II Civil Works	Complete to SIPD Satisfaction
SIPD 943	Completion of Well Tie Ins DS1 & 2	Ongoing to SIPD Satisfaction
SIPD 711	Camp Provision	Ongoing to SIPD Satisfaction
SIPD 745	Phase 2 Camp Services	Ongoing to SIPD Satisfaction
SIPD 1170	Wellhead Control Panels	Complete to SIPD Satisfaction
SIPD 1001	Misc Civil Works	Complete to SIPD Satisfaction
SIPD 0548	MJ07 Well Intervention - Civil Works	Complete to SIPD Satisfaction
SIPD 0586	MJ09/MJ11 Well Intervention - Civil Works	Ongoing to SIPD Satisfaction

Al Yamama's service level has been consistently acceptable during their period of engagement on the Majnoon Field.

Kind regards

 Steven McAvoy
 SIPD Site Manager, Majnoon Field

 EPC SOUTH NEW DEGASSING STATION / IRAQ

CERTIFICATE OF EMPLOYMENT

Date: 15-Jul-2015

TO WHOM IT MAY CONCERN

This is to certify that:
 Al Yamama Engineering company was working as direct sub contractor for our company in Al Zubair south De-Gassing station (DGS), during the execution of the project Al Yamama executed their scope with Daewoo very well in terms of technical capability by providing technical staff and specialized equipment, and we would like to mention that Al Yamama completed the work without asking any advance payment.

Mr: AL YAMAMA ENGINEERING COMPANY

Was employed as: SUB CONTRACTOR
 for the period from 21-10-2014 to 16/07/2015

This certification is used upon request of the Employee for whatever legal purpose/s it may serve. During the internship here at DAEWOO E&C, I have had many opportunities to talk with MR. Haydar Abdulhusian and to observe the quality of his work, He is Coordinator in ALYAMAMA COMPANY and he was an intelligent, hardworking, and conscientious individual. He is punctual, dependable and dedicated to "getting the job done" he maintained Good relationship with his fellow employees and listen carefully to instruction.

While here in DAEWOO E&C, He has shown a particular interest in our work in EARLY CIVIL WORK FOR DGS SOUTH IN RAFIDYA and I have personally demonstrated to him many of work as Coordinator. He has very attentive to what I have shown him and appears to have excellent potential. I highly recommend other companies to hire him.

CERTIFICATE OF APPRECIATION

We, NAUE GmbH & Co. KG, hereby confirm that we have conducted business with Al-Yamama Engineering Company based in the Majnoon Oil Field, Iraq, Basra, supplying geotextiles and geogrids needed for the rehabilitation of the existing roads and the construction of new roads in the oil field.

Since 2015, we delivered several shipments of such materials, totaling more than 120,000 m² of bi-axial geogrids and more than 75,000 m² of filtration/separation geotextiles, that have been further utilized by Al-Yamama Engineering Company for these course reinforcement.

We express our high appreciation for the sincere and professional relationship with Al-Yamama Engineering Company, with whom we had the chance to discuss openly and solve all the commercial and logistic problems. As well, since the beginning of our collaboration, Al-Yamama Engineering Company has had an excellent payment performance.

For us, Al-Yamama Engineering Company has been a valuable and trustful partner with whom we are looking to continue and develop business.
